

## Lady Lumley's School

15<sup>th</sup> September 2021

Dear Parent/Carer,

We are in the process of changing some of our I.T systems at school. One exciting change is the introduction of a piece of software called Classcharts. Throughout next week we will be talking to pupils in assemblies about how Classcharts will be used to support homework.

During next week the pupils will receive guidance about how to access Classcharts and navigate the platform. Your child will receive details about how to log in and these will be shared with you via email next week, so that you can support your child at home. As part of our implementation, we will be launching the Parent App. very soon and will communicate this with you when it is set up.

This system will replace our current Virtual Learning Environment, Itslearning and will be active from Monday 27<sup>th</sup> September. There will be more information in next week's newsletter about Classcharts, to support parents and pupils.

As an interim measure, pupils will be recording all homework in their planners, so please continue to check your child's planner for information about any work that has been set.

Kind regards,

Brian Davis

Assistant Head
