Supporting your child's success in Year 11

Dear parents and carers,

Thank you for all of you who able to attend the 'Supporting Success' evening last week. Please find attached a summary of the Year 11 Roadmap for this term and the after-school Study+ programme dedicated to support students in the lead up to their Pre-Public Examinations after half term and Christmas.

The key focus over this term will be the preparation for the Pre-Public Examination series, which have been split into 'Core: English, Maths and Science' after half term and 'non-core: all other subjects after Christmas. Please talk to your children about the upcoming events and how they have been preparing. Please remember the purpose of the PPEs are for students:

- to become familiar with the **procedures, exam hall environment, timings, and exam conditions** they will face.
- to **practice academic revision** and preparation before and specific **examination technique** during GCSE style examinations.
- to see what they know and make sure **they improve their skills and knowledge where needed** in the coming months.

MR TAYLOR

Give yourself 5 challenge

1. Read through all your opportunities

2. Talk to your parents

3. Talk to your friends

4. Get involved

5. Try something new

Learning • Leading • Ambition • Progress

We thank you for your continued support with your daughters and sons taking on this crucial year of their education.

Yours sincerely

David Fairclough
