

Lady Lumley's School

October 2022

Dear Parent/Carer,

Scarborough Science & Engineering Week – Scarborough Spa – Tuesday 11th October, 2022

Lady Lumley's School has been invited to Scarborough Spa to attend the annual Scarborough Science and Engineering Week (SSEW2022). This is the biggest-ever, employer-led, 3-day event designed to show young people how science, technology, engineering and mathematics (STEM) are used in the real world. It aims to inspire students to consider the exciting opportunities that studying and working in STEM can open up to them. The event caters to a wide range of interests and involves businesses, universities and others, allowing students to discover the wealth of exciting career opportunities available to them in science, technology, engineering and mathematics (STEM).

The trip will give an opportunity to improve knowledge in STEM subjects, as well as introducing your child to potential career paths in science, technology, engineering and maths, which they may not previously have thought about.

The trip takes place entirely within school hours, leaving Lady Lumley's at approximately 10am, and returning by 2pm, in time for the school buses.

Students should bring a packed lunch and will have time whilst at Scarborough Spa to eat it there. As students will be going from school, they are expected to wear the correct school uniform.

There is no cost for this trip as it is a compulsory part of the Careers programme at Lady Lumley's School.

Please return the slip below to your form tutor.

Yours faithfully,

Martin Heeley

PSHCCE/Careers Co-ordinator
